Dear Edith — we are getting pretty well straitened around. Johnie had to go down town on an Errand this P.M. and on to Montabello and I washed my face and changed my dress, and have been resting all the P.M. Just got up to write you a little and say I do hope you will not send for the table as it is old and will cost you so much to get it to you, and you have no room or need of it as I can see, and Johnie and I bowth think you will be very foolish to get the book case as Geo. can make you a nicer one when you get ready for one, for 1/2 the money.

2/ I find we haven't as much cubbord room in the Kitchen as we had out in the little Shanty. Yesterday morning Papa washed our underclothes and Stockings 2 towls and 1 dish towl, So our washing is done for this week. It was so nice was ofraid it might rain later in the week so it is out of the way. Am pretty good in the morning or was this Morning but can hardly walk on leg after working a while. I am so ofraid you are down in bed from that awful work, and am so greatful for the help. as I keep unpacking things I think what a fine job you did, and I am so sorry I never thought to give dear Alice any thing for her help. I want to give not eat any thing until last night a little. Pie!

with Love
Ella
